

GUZMÁN PAZ

Bio

Guzmán Paz (Montevideo, 1988) is a painter, sculptor, and designer. His practice explores queer subjectivity through intimate narratives filled with playfulness and fantasy. He combines painting and meticulous craftsmanship in three-dimensional works, incorporating elements drawn from everyday life and the domestic sphere to create the landscapes and settings of his scenes: worlds born from the intersection of personal experiences and daydreams. His pieces reflect a clear love for painting, but also a drive to subvert, transform, or subtly parody its baroque potential. He is a member of the Básica TV collective. He lives and works between Uruguay and Argentina and is currently represented by Nora Fisch Gallery.
